Dear Client,

New owner of Astepto Srl.

From 9th April 2010 Alfa Laval acquired Astepto Srl., and since then we have been working hard to integrate ourselves with the new ownership.

As you may know, Alfa Laval is one of the world leading companies in the Food Technology, Chemical and Pharmaceutical industries and we expect very good synergies for our present and future customers. Especially as the Astepto heat transfer and filling equipment seems to be a very good match to the existing Alfa Laval product portfolio. We are in no doubt, that being a part of Alfa Laval will mean that we will be able to offer you even better cutting-edge solutions, project execution and full life cycle support in the future.

“Business as usual”

We will remain at our existing location in Parma, Italy and the only change you will experience is that we will promote our Bag-In-Box filling equipment to the market under the name Alfa Laval Astepto. The same people that you normally would meet and correspond with from Astepto, i.e. sales managers, order handlers, etc. will continue as before.

Together with Alfa Laval’s global market coverage through sales companies in more than 50 countries and services centers in many more, we will also be able to offer you even better solutions in future in regards to new innovative processing lines and key components, upgrades, parts and service etc.

During the integration period you may experience some minor delays in response from our side. However, once fully integrated in the Alfa Laval organization, we look forward to continuing our fruitful business relationship with you.

Please note that we are closed for summer holidays from the 9th until the 20th August included.

Yours sincerely

Pierluigi Decio
Business Unit Manager

Parma, 4th August 2010
